THE BUSINESS OF VERY SPECIAL PEOPLE

For over 30 years, Life Experiences has provided a place for adults with disabilities who strive to become independent and productive citizens, working for pay. We believe that our approach of enhancing self-esteem through regular work and wage earning is one of the best in the area. The variety of work programs at Life Experiences allows us to match the needs of the individual employee with a job that they can master. In addition, we sponsor regular socialization opportunities such as parties, dances and activities.

Today we serve 49 adults with special needs in our five business areas:

- In the bakery, cookies, bread and other goodies are made from scratch by our employees.
- Our commercial laundry provides services to area businesses.
- We also provide subcontract services such as collating and packaging for local businesses including rolling silverware for the airlines, packaging dog biscuits, and assembling rib kits.
- A shredding service was added two years ago. We provide confidential shredding services for individuals and companies.
- Our newest venture is packaging buckwheat hulls and seeds for pillows and craft projects.
